"When I first signed up for LDI I never imagined how God would use this leadership training to change my life. I have had opportunity to influence all the staff in my school as well as become the Director of Cultural Journey with the Navs."

Felton Woodson, I:58 - Tidewater

"Time and time again I refer to the Lead, Develop, Care mode as I approach my own leadership and as I help the people I lead. The model is simple and yet robust enough to explain biblical leadership in a way that people can understand and broadly apply to their context. I appreciated the approach LDI took to make sure the things we were learning could be applied in real-time."

Dave Panto, Collegiate - Central Plains Regional Leader

"One of my takeaways from LDI has been falling deeper in love with our Navigator vision: To know Christ, make Him known & help others do the same. I feel like I have the language & tools now to lead my staff team well in that vision."
